Zaroza

Beauty & Care

Zaroza is a cosmetic product brand designed to enrich the cosmetics industry by incorporating the richness of nature into its formulas, always maintaining consistent quality and sustainable products.

With over 10 years of experience in cosmetic production and an expert team in the field, The Mossi Health and Cosmetics company has created a high-quality and clean-content brand with state-of-the-art production lines and an innovative R&D laboratory. Our goal is to produce products for healthy beauty while also pioneering new ingredients to inspire the cosmetics industry.

The product range of the Zaroza brand, created to provide all kinds of cosmetic needs, includes shampoos, hair care oils, hair conditioners, facial cleansing gels and toners, moisturizing skin cream, anti-aging cream, skin serum, sunscreen, anti-cellulite cream, stretch mark prevention creams, body peelings, and roll-on products. All of these natural skincare products are offered to you with clean ingredients and the quality assurance of The Mossi Health and Cosmetics.

We aim to provide you with maximum benefits by combining natural skincare products with functionality. We use the richness of nature to create the most effective formulations, focusing on the needs of hair and skin. We drew inspiration from nature in our designs, just as we did in our contents. Using the magnificent colors of nature, we have created colorful packaging for you.

Because we know that **BEAUTY IS IN OUR NATURE!**

No animal testing here! We are PETA certified. We are 100% vegan.

We use FSC Certified packaging for our products. FSC certified packaging is obtained from forests grown specifically for industrial needs and its aim is to protect the world's forests.

We use botanical ingredients like Chammomile, Calendula, Horse Chesnut, Nettle Leaf and Saw Palmetto to deliver high-performance products for glowing, healthy-looking skin and hair.

There is no place for any hazardous substance on human health such as SLS, SLES, paraben, paraffin, animal oil in our products. We filled our products with flowers, herbs and botanical extracts.
